

INTERSTATE EUROPE

HOTELS & RESORTS

Interstate Hotels and Resorts Energy Policy and Statement of Commitment 2014

Interstate Europe Hotels and Resorts, have set out to commit organisational resource to energy management, we will work to reduce costs, minimise CO₂ emissions, minimise environmental impact and where possible work towards using energy from sustainable resources in all our hotels and corporate offices.

- We commit to comply with the requirements of environmental legislation and approved codes of practice.
- We commit to continuously seek to improve our environmental and social performance.
- We commit to reduce pollution, emissions and waste.
- We commit to giving high priority to energy efficient investment to reduce the use of energy, waste and other resources.
- We commit to assist customers to use products and services in an environmentally sensitive way.
- We commit to establishing a monitoring and targeting system in our hotels.
- We commit to continue to maintain a network of Energy Champions in our hotels.
- We commit to continue raising awareness, encouraging participation and training employees in sustainable business practices and commit to improved communication across our hotels through our Energy Champions and company energy newsletters.
- We have joined the Green Tourism Business Scheme as an indicator of our sustainable practices and commitment to continuous improvement.

This commitment is endorsed by the Managing Director (UK) of Interstate Hotels and Resorts.

Robert Crook MD
